BIOHACKING · SIMPLIFIED

ENHANCED ORGANIC CHLORELLA
PM · DAILY DETOXIFICATION

COMPLETE NUTRITIONAL PROFILE

CoreGreen

One serving. One source. Cellular detox & immunity defense, naturally inside every tablet.

2026 EDITION • VOLUME 03 · COREGREEN • PERGAINC.COM

FORMAT

140 Tablets

Single-bag, ~28-day supply

SERVING

5 Tablets · 2,500 mg

Cracked-cell organic chlorella

VERIFIED BY

USDA Organic

Non-GMO · BRCGS · ISO 9001

AT A GLANCE

One serving. One source.

Backed by USDA-NOP Organic certification, Non-GMO Project verification, and a decade of historical analytical data on the cracked-cell organic chlorella inside every CoreGreen tablet. Built for PM use as a daily detox & immunity support layer.

DAILY SERVING

5 Tablets · Taken PM
with water

PHILOSOPHY

Whole cracked-cell,
not isolated

FREE FROM

Allergens, isolates,
nano-particles, dyes

2,500 mg

Organic Chlorella

Whole cracked-cell
Chlorella vulgaris. The entire active
source — no isolates, no
concentrates.

43.5 mg

Chlorophyll

The naturally-occurring green
pigment unique to whole-cell
chlorella. Drives the green you see
in every tablet.

7.5 mcg

Vitamin B₁₂

Naturally-occurring · 3× Daily Value.
Documented in clinical research to
support serum B12 status.

WHY CRACKED-CELL

**Standard chlorella has a rigid cell wall
— we break it.**

CoreGreen uses a controlled cracked-cell process that breaks the cellulose-rich wall to support nutrient access without solvents or isolates. The result: the whole organism delivered, with its natural nutrient matrix intact.

A DECADE OF DATA

**6-batch-year historical
analytical mean.**

Values shown across this profile reflect typical analysis across six batch-years of historical analytical data (2017–2026) on the certified organic source, scaled to a 5-tablet serving.

WHAT'S NATURALLY INSIDE · PER 5-TABLET SERVING

Macronutrients & vitamins.

Typical analysis of the naturally occurring nutrients within 2,500 mg of Perga's enhanced organic chlorella. Values reflect six batch-years of historical analytical means on the certified organic source used in CoreGreen.

MACRONUTRIENTS	PER SERVING
Calories	10 kcal
Protein	1,440 mg
Total Carbohydrate	557 mg
Dietary Fiber	~100 mg
Sugar	0 g
Cholesterol	0 mg
Total Fat	312 mg
Saturated Fat	69 mg
Polyunsaturated Fat	97 mg
Monounsaturated Fat	44 mg
Omega-3 Fatty Acids	58 mg
Omega-6 Fatty Acids	54 mg

VITAMINS	PER SERVING
Vitamin B ₁₂ (declared) 3 × DV	7.5 mcg
Vitamin E	0.29 IU
Vitamin K ₁	0.024 mg
Thiamine (B ₁)	0.033 mg
Riboflavin (B ₂)	0.13 mg
Niacin (B ₃)	0.52 mg
Pantothenic Acid (B ₅)	0.060 mg
Pyridoxine (B ₆)	0.038 mg
Biotin (B ₇)	2.1 mcg
Folate (B ₉)	42 mcg
Inositol	5.3 mg

Vitamin B₁₂. Chlorella's naturally-occurring B12 has been documented in human clinical research to support serum B12 status. The 7.5 mcg declared per serving represents a conservative label value; typical analytical content runs higher.

CONTINUED · PER 5-TABLET SERVING

Minerals & the complete protein.

Chlorella is a complete plant protein. CoreGreen delivers all nine essential amino acids naturally — no isolates added — alongside a full mineral profile from the certified organic source.

MINERALS	PER SERVING
Calcium	7.5 mg
Iron (declared) 5% DV	900 mcg
Magnesium	6.7 mg
Phosphorus	23.0 mg
Potassium	22.8 mg
Sodium	19.3 mg
Zinc	0.19 mg
Manganese	Trace
Iodine	11 mcg
Selenium	0.5 mcg

AMINO ACID PROFILE	TOTAL ≈ 1,238 MG / SERVING
ESSENTIAL · 9	
Histidine	25 mg
Isoleucine BCAA	53 mg
Leucine BCAA	115 mg
Lysine	81 mg
Methionine	25 mg
Phenylalanine	68 mg
Threonine	62 mg
Tryptophan	27 mg
Valine BCAA	76 mg

NON-ESSENTIAL · 9

Alanine	102 mg	Arginine	85 mg	Aspartic Acid	117 mg
Cystine	12 mg	Glutamic Acid	145 mg	Glycine	75 mg
Proline	67 mg	Serine	53 mg	Tyrosine	51 mg

Chlorella protein contains the full complement of essential amino acids in well-balanced ratios — naturally rich in leucine and the BCAA cluster. Total amino acids per serving: **approximately 1,238 mg.**

PIGMENT SCIENCE · PER SERVING

HERO PIGMENT

43.5 mg**Chlorophyll**

The deep green chromophore that gives chlorella its name — and the single largest naturally-occurring pigment in every CoreGreen serving. It's why the source must be both certified organic and analytically verified.

The color of chlorella is the proof inside.

Chlorella's pigment density is a measurable signal of cell-wall integrity and growth-cycle quality. CoreGreen's source is selected and processed to retain its full pigment matrix — chlorophyll, lutein, carotenoids, and the full Chlorella Growth Factor (CGF) profile.

CHLORELLA GROWTH FACTOR (CGF)

~375 mg Nucleic Acid
Compounds,
Glycoproteins & β -
Glucans

A naturally-occurring fraction unique to chlorella, containing nucleic acid compounds, glycoproteins, and β -glucans. Retained intact by the cracked-cell process.

 ≥ 10 mg**Total Carotenoids**

Naturally occurring
antioxidant pigment family.

 ≥ 5 mg**Lutein**

$\approx$ 50% of carotenoids.
Naturally pigment-dense.

 **β -Carotene**

Naturally occurring · Vit A
activity.

100%**Cracked-Cell**

Whole-organism
processing. No solvents, no
isolates.

Why no synthetic isolates. Pigments isolated from their cellular matrix lose the stabilizing co-factors that surround them in nature. CoreGreen delivers the whole-cell complement so each pigment arrives with its natural partners.

INDEPENDENTLY VERIFIED · BATCH-TESTED

Tested clean. Verified clean.

Every batch is tested against California Prop 65 — the most stringent heavy-metal standard in the US — and verified compliant at the recommended 2.5 g daily serving.

CALIFORNIA PROP 65 STATUS

ELEMENT	STATUS	TEST METHOD
Lead	● Compliant	ICP-MS
Arsenic	● Compliant	ICP-MS
Cadmium	● Compliant	ICP-MS
Mercury	● Compliant	ICP-MS
Microcystin	● Compliant	ELISA
Pesticides	● Compliant	GC-MS

Tested against California Prop 65 — the most stringent heavy-metal standard in the US. Verified compliant at the recommended **2.5 g daily serving**.

THE PERGA DIFFERENCE

Not all chlorella is created equal.

CoreGreen is built on a certified organic, whole cracked-cell chlorella source — a processing format that breaks the rigid cellulose cell wall to support nutrient access. Compared to standard commodity chlorella, CoreGreen's source delivers naturally higher levels of chlorophyll, carotenoids, and naturally-occurring B₁₂, with one of the cleanest contamination profiles in the category.

1.5×

More Chlorophyll

Per gram, vs. standard commodity chlorella.

3×

Daily Value B₁₂

7.5 mcg naturally-occurring per 5-tablet serving.

100%

Cracked-Cell Processing

Whole-organism format. No solvents, no isolates.

VS. STANDARD COMMODITY CHLORELLA — INTERNAL ANALYTICAL COMPARISON.

ABOUT THIS PROFILE

Values shown reflect typical analysis based on six batch-years of historical analytical data on the certified organic chlorella source used in CoreGreen, scaled to a 5-tablet (2,500 mg chlorella) serving. Natural variation occurs batch to batch; values are representative, not guaranteed minimums.

This document is **not the FDA Supplement Facts panel** — see the product label for declared label values.
